Subject: SCHEDULING: SB 231 Working Group Meeting
Importance: High

Hey all,

I would like to schedule a SB 231 Working Group meeting before the end of the year. The meeting will be in Oakland, but we can provide a call-in option. Please fill-out this Doodle by **COB tomorrow**:

<https://doodle.com/poll/8rhs6pgfeu36cf7w>.

Our SB 231 Working Group has taken a short break over the summer to focus on outreach to potential test-cases in the Bay Area. And I am excited to announce that we have a candidate! We will be hosting our final 2018 meeting in the Bay Area so our test-case city can provide a presentation of their stormwater project, we can discuss next steps, and start developing our plan to build political support for the test-case city council to approve the new SB 231 fee.

Agenda and meeting materials to follow.

-Sean
